PROFESSIONAL SUMMARY

Brand and Product Designer with **6+ years** working at the intersection of construction technology, fintech, and digital products. I build cohesive design systems, intuitive product interfaces, and brand identities that scale — bridging visual craft with UX research and business strategy. An **AI-integrated designer**: I work fluently with Claude Code, Figma MCP servers, and AI-assisted prototyping tools to compress design-to-build cycles and ship faster than traditional workflows allow. Comfortable owning both visual direction and technical handoff for cross-functional teams.

SELECTED PROJECTS

- **YDPay Mobile App Redesign**: End-to-end UI/UX redesign across 96 screens / 14 user flows; designed the SpinPop gamification feature with a dedicated wallet and Games Lobby; led the AFC Free Fire Tournament campaign.
- **Quiv (BIM Quantity Take-Off Tool)** — ADLM Studio — Product design for a BIM-powered takeoff tool targeting quantity surveyors. Iterated v3→v4 across Sign In, Hub, Import, Measure, Collation, and Settings flows in Light, Dark, and Blue themes.
- **NIQS Brand Strategy & Redesign** — Brand strategy and full redesign for the Nigerian Institute of Quantity Surveyors. Reworked brand guidelines, template design system, website design, and admin portal management for their digital platforms.

WORK EXPERIENCE

02/2026 – Present
Contract · Remote

YDPay 
Creative Designer (Multidisciplinary)

- Crypto fintech offering a virtual dollar card and gamified rewards.
- Lead end-to-end creative output across UI/UX, product design, social media, motion, print, and publication design — owning the visual language across all customer-facing touchpoints.
 - Delivered a full UI/UX redesign covering 96 screens across 14 user flows, including new onboarding, wallet, and game surfaces.
 - Designed SpinPop—a gamification feature with a dedicated wallet and Games Lobby—and shipped the referral dashboard system using a custom typographic and color framework.

- Produced motion design assets and the full marketing campaign for the YDPay × AFC Free Fire Tournament, expanding brand reach into gaming communities.
- Use AI-assisted workflows (Claude Code, Figma MCPs, Magic UI) to accelerate prototyping and component generation across the design-to-build pipeline.

Whitespace Creatorverse [↗](#)

Creative Designer

Multidisciplinary creative agency delivering branding, web, and digital experiences for brands and creators.

- Deliver multidisciplinary design across brand identity, UI/UX, web, and content design for agency clients spanning fintech, wellness, and creator-economy sectors.
- Translate client briefs and brand strategy into distinctive visual identities—including logo systems, typography, color frameworks, and full brand guideline documents.
- Design responsive websites and digital platforms in collaboration with developers and strategists, ensuring craft consistency from concept through handoff.
- Contribute to agency-wide design quality through shared design language, layout systems, and storytelling frameworks across client campaigns.

07/2025 – 03/2026
Remote, Nigeria

Book Rion [↗](#)

UI/UX & Brand Designer

Africa-focused book platform connecting readers, authors, publishers, and bookstores.

- Designed and maintained the interface system across BookRion's web and mobile platforms — Rion Prime, Young Rion, and the Listing Portal — ensuring consistency and usability across all surfaces.
- Translated business goals and user research into wireframes, prototypes, and high-fidelity designs, including the Community / Book Clubs experience.
- Developed and managed BookRion's brand identity system — typography, color palette, and visual assets — to strengthen brand coherence and recognition.
- Conducted usability testing and iterated based on user feedback, ensuring accessible, inclusive experiences aligned with WCAG standards.
- Collaborated cross-functionally with product managers, developers, and content teams to balance aesthetics, functionality, and business objectives

Lagos, Nigeria

ADLM Studio

Creative Lead

A ConTech-focused platform that unifies rate build-ups, digital take-off, learning, certifications, and team management—so QS teams deliver accurate, defensible numbers faster.

- Lead creative direction for the studio — owning brand identity, product UI, marketing collateral, and client deliverables across multi-disciplinary projects.
- Define and maintain studio design standards, brand guidelines, and component libraries used across every client engagement.
- Lead product design for Quiv — a BIM-powered quantity take-off tool — from concept through prototype iterations (v3→v4), informed by deep market research into BIM tool adoption in Lagos.
- Built an AI-integrated design workflow on Windows from scratch — Claude Code, Figma and Magic UI MCPs, and a Figma↔HTML↔Figma loop deployed to Vercel — to compress design and build cycles for studio projects.
- Collaborate with engineers and developers to align design intent with technical implementation, accelerating handoff and reducing rework.

SKILLS & TOOLKIT

DESIGN & PROTOTYPING

Primary: Figma. Adobe Suite: Photoshop, Illustrator, InDesign.

Familiar: Canva, Miro.

AI-INTEGRATED DESIGN

Claude Code, Figma MCP, Magic UI MCP, AI-assisted prototyping & design-to-code workflows, Vercel deployments.

FRONTEND & HANDOFF

HTML / CSS literacy, Figma-to-HTML-to-Figma roundtripping, design tokens, component libraries, dev handoff documentation.

SOFT SKILLS

Cross-functional collaboration · Project leadership · Communication · Detail orientation · Mentorship.

CERTIFICATIONS

Google UX Design Professional, Certification

Product Design Certificatio

Creative Ferry Additional design training: Perxels Design School, Quality Studio (Logo Design Masterclass), Udemy (Graphic Design Masterclass).

EDUCATION

Obafemi Awolowo University

BSc. Quantity Surveying

2024 | Osun, Nigeria
